MINIMUM DESIGN AND CONSTRUCTION STANDARDS

Date: November 14, 2012
Date Last Issued: October 1, 2012
Date First Issued: Prior to 1990

This document approved by the Broward County Water & Wastewater Services Technical Standards Committee.

Steven W. Uhrick, P.E, Chair

Water and Wastewater Services (WWS) has published multiple documents which together create WWS' "Minimum Design and Construction Standards". Those documents are:

- Guideline for Determining Ability to Provide Potable Water and Wastewater Service
- Guideline for Minimum Clearance Between WWS Facilities and Other Features
- Guideline for Minimum Force Main Sizing
- Guideline for Providing Water and Wastewater Service to Land Development Projects and Public and Private Properties
- Guideline for Single Manufacturer Per Construction Project
- Guideline for Walls-Fences Across WWS Easement
- Guideline for Water Distribution System Dead End Water Mains
- Guideline for Water Distribution System Valve and Hydrant Spacing
- Lift Station Standard Pumps
- Lift Station Wetwell Sizing Requirements
- Minimum Drawing Requirements for Piping Projects
- Minimum Easement Requirements
- Minimum Installation and Testing Requirements
- Product Specification Sheets
- Typical Lift Station
- Water and Wastewater Standard Details
- Authorization to Work on Airport Property
- Request for Service
