

Trauma Services

Our Mission:

The mission of Broward County Trauma Services is to assure that quality, comprehensive, countywide trauma medical care and patient transportation are provided to residents and visitors in Broward County. That's a big job. The Trauma Services staff works with hospitals as well as local, state and federal agencies to provide coordination, monitoring and management of the trauma system, This includes:

- system-wide quality assurance programs
- Broward County Trauma Plan maintenance
- pre-hospital trauma care
- assistance with hospital trauma center certification
- air transportation of patients
- trauma triage and transport protocols
- gathering and reporting of trauma data

The Trauma Services section manages Broward County's Emergency Medical Services Trust Funds. These funds are used to improve and expand pre-hospital EMS care.

Broward County Trauma Services staff are dedicated to assuring the residents and visitors in Broward County receive quality trauma medical care.
